scientific program

An Update on Neuroimmunological Disorders *summary*

Aim of this event is to discuss inflammatory/autoimmune nervous system conditions, with a focus on NMOSD, MOGAD, optic neuritis, myelitis, autoimmune/paraneoplastic encephalitis, peripheral neuropathies, and myopathies. We will discuss the clinical, paraclinical, and pathophysiological aspects with a focus on future perspectives. We will present the diagnostic and therapeutic process, discussing also the differential diagnosis and new emerging markers.

razionale

L'incontro si pone l'obiettivo di discutere le principali patologie infiammatorie/autoimmuni del sistema nervoso, con focus sulla neuromielite ottica, le patologie associate ad anticorpi anti-MOG, le neuriti ottiche, le mieliti, le encefaliti autoimmuni/paraneoplastiche, le neuropatie periferiche e le miopatie. Verranno trattati gli aspetti clinici, paraclinici e patofisiologici con riferimento anche alle prospettive future. Si discuteranno i processi diagnostici e terapeutici, con focus anche sulla diagnosi differenziale e i marcatori emergenti.

8.00

Registration of participants

8.30

Welcome and greetings
from the authorities

*1st
session*

NMOSD and MOGAD

Chairpersons

R. Cortese, G. Maniscalco,
C. Tortorella

9.00

*Clinical and radiological
features*

J. Palace

9.20

*Treatment, outcomes,
and quality of life*

M. Levy

9.40

Pathophysiology

J. Bennett

10.00

Utility of emerging biomarkers

O. Aktas

10.20

Discussion

10.40

Coffee Break

2nd session

Optic neuritis and myelitis

Chairpersons

E. Sechi, M. Romano, R. Iorio

11.00

The differential diagnosis of myelitis

E. Flanagan

11.20

The differential diagnosis of optic neuritis

F. Paul

11.40

Discussion

LECTURES

Chairpersons

L. Massacesi, M. Capobianco, MP. Sormani

12.00

How to establish European guidelines

B. Willekens

12.20

Seronegative NMOSD: how and why developing diagnostic criteria and treatment recommendations

R. Marignier

12.40

Discussion

13.00

Lunch & Poster

Chairpersons

M. Gastaldi, A. Vogrig, G. Vattei, A. Gajofatto

14.00

Best poster presentation and awards

3rd session

Autoimmune encephalitis and paraneoplastic syndromes

Chairpersons

L. Zuliani, M. Zoccarato, M. Spatola

14.30

Novelties in paraneoplastic neurological syndromes

A. Zekeridou

14.50

Immune-mediated cerebellar syndromes

F. Graus

15.10

Antibody-mediated autoimmune encephalitides

M. Spatola

15.30

What neurologists should know about diagnostic assays

R. Hoeflberger

15.50

Discussion

4th session

Peripheral neuropathies and myopathies

Chairpersons

C. Briani, P. Tonin, M. Tagliapietra, V. Damato

16.10

Myasthenia gravis: diagnosis, evaluation and treatment

N. E. Gilhus

16.30

Autoimmune neuropathies: diagnosis, management and treatment

A. Uncini

16.50

Inflammatory myopathies

I. E. Lundberg

17.10

Discussion

17.30

Final remarks

and Conclusions

S. Mariotto, S. Ferrari

180

Target Audience

Medici Chirurghi specialisti in:

Anestesia e Rianimazione, Ematologia, Malattie infettive, Medicina Generale (MMG), Microbiologia e Virologia, Neurologia, Neuropsichiatria infantile, Oculistica, Oncologia, Psichiatria, Radiologia

Specializzandi in Neurologia e Neuropsichiatria

Infantile, Dottorandi in Neuroscienze

Biologi, Farmacisti, Fisioterapisti

Infermieri, Psicologi, Tecnici di laboratorio

Tecnici di neurofisiopatologia
