

PROGRAMMA ECM IN PROGRESS

The evolving spectrum of Neuroimmunological Disorders

VERONA

POLO ZANOTTO – UNIVERSITA' DI VERONA

RESIDENZIALE

Date | **Monday, November 10th 2025**

Provider ECM 6207
Segreteria Organizzativa | **Eolo Group Eventi srl,**
Via V. Veneto 11 – 35043 Monselice (PD)
ID Agenas 6207

Responsabili
Scientifici | **Dott. Sergio Ferrari**
Dott.ssa Sara Mariotto

Razionale | L'incontro si pone l'obiettivo di discutere le principali patologie infiammatorie del sistema nervoso, analizzandone la patogenesi, la diagnostica differenziale e le strategie terapeutiche. Si discuteranno gli aspetti clinici, diagnostici e terapeutici, con particolare focus sulla neuromielite ottica, le patologie associate ad anticorpi anti-MOG, le encefaliti, le neuropatie periferiche e la miastenia gravis, con riferimento anche alle prospettive future. Verranno esplorati anche gli aspetti legati all'età pediatrica ed alla gravidanza.

Aim of this event is to discuss inflammatory nervous system conditions, analysing their pathogenesis, differential diagnosis, and treatment strategies. We will discuss the clinical, diagnostic, and therapeutic aspects, with a focus on NMOSD, MOGAD, encephalitis, peripheral neuropathies, and myasthenia gravis, referring also to future perspectives. We will also analyse aspects related to the pediatric population and pregnancy.

Destinatari
N. 200 | Medici Chirurghi specialisti in:
Anestesia e Rianimazione, Ematologia, Malattie infettive, Medicina Generale (MMG), Microbiologia e Virologia, Neurologia, Neuropsichiatria infantile, Oculistica, Oncologia, Psichiatria, Radiologia
Specializzandi in Neurologia e Neuropsichiatria Infantile
Dottorandi in Neuroscienze
Biologi
Farmacisti
Fisioterapisti
Infermieri
Psicologi
Tecnici di laboratorio
Tecnici di neurofisiopatologia

Agenda

8.00 | Registration of participants

8.30 | Welcome and greetings from the authorities

M. Tinazzi, M. Zappia, A. Padova, C. Barbui, C. Bravi, G. Costantin

1st Session: Demyelinating conditions: from MS to NMOSD and MOGAD

Chairpersons: L. Massacesi, C. Gasperini, C. Tortorella, M. Capobianco

- 9.00 Pathogenesis
Kazuo Fujihara
- 9.20 Differential diagnosis
Georgina Arrambide
- 9.40 Approach to optic neuritis
John Chen

10.00 *Discussion*

2nd Session: Focus on NMOSD and MOGAD

Chairpersons: M. Reindl, N. De Stefano, V. Damato, R. Cortese

- 10.20 Non-conventional imaging
Maciej Jurynczyk
- 10.40 The contribution of biomarkers
Friedemann Paul
- 11.00 *Discussion*

11.20 *Coffee Break*

Point Counter point on the diagnostic and treatment approach

Chairpersons: M. Inglese, A. Biseco, R. Iorio, E. Sechi

- 11.40 Assays interpretation: Clinical
Michael Levy
and laboratory perspectives
Patrick Waters

- 12.20 Treatment algorithm for NMOSD
Jackie Palace
and MOGAD
Romain Marignier

13.00 ***Lunch & Poster***

Chairpersons: A. Gajofatto, G. Vattemi, A. Cossu, GT Maniscalco, P. Doneddu, S. Casagrande

14.00 ***Best poster presentation and awards***

3rd Session: Encephalitis/Encephalomyelitis

Chairpersons: M. Gastaldi, M. Spatola, A. Vogrig, M. Zoccarato

- 14.10 From infectious to autoimmune causes
Eoin Flanagan

- 14.30 Autoimmune encephalitis: established and emerging features
Harald Pruss
- 14.50 Autoimmune encephalitis: strategies for treatment improvement
Frank Leypoldt
- 15.10 *Discussion*
- 3rd Session Pediatric population**
Chairpersons: G. Cantalupo, M. Nosadini, S. Matricardi, L. Zuliani
- 15.30 Differential diagnosis of inflammatory CNS disorders in children
Thais Armangue
- 15.50 Diagnostic and treatment algorithms in children with MOGAD and autoimmune encephalitis
Yael Hacohen
- 16.10 Focus on Pregnancy and new borns
Kumaran Deiva
- 16.30 *Discussion*
- 4th Session News and views on muscle and nerve**
Chairpersons: P. Tonin, MP. Giannoccaro, M. Tagliapietra, C. Briani
- 16.50 Diagnosis and treatment of Myasthenia Gravis
Amelia Evoli
- 17.10 Diagnosis and treatment of inflammatory neuropathies
L. Benedetti
- 17.30 *Discussion*
- 17.50 Final remarks and Conclusions
S. Mariotto, S. Ferrari
